From the Chief Engineer
Forwards a copy of the letter furnishing the opinion of the Engineering Association on the question of entrusting the printing work of the Assn to private presses.

1) The Hony Secretary of the Assn gives the following reasons for desiring the work to be done in the Govt Press.

1. Considerable difficulty is experienced the absence of the required stock of required mathematical figures & symbols
2 The cost of paper is considerably cheaper in the Govt Press.
and 3 The Govt Press is more accessible being much nearer to the Assn rooms

The above stated reasons are may be taken into consideration in view of the fact that the Assn receives an annual grant from Govt

From C.S. Balasundaram Iyer, Esq., B.A.,

Chief *Secretary to the Government of His Highness the Maharaja of Mysore,*

To

S. Cadambi, Esq., B.A.,L.C.E.,

Chief Engineer of Mysore.

SIR,

Owing to the large accumulation of work in the Government Press, it is under contemplation to relieve the pressure by discontinuing the execution of all private works of whatever description. I am to request to be favoured with your opinion whether the printing of the proceedings and Bulletins of the Engineers' Association which come under this category cannot be entrusted to private Presses.

a very early reply is requested.

I have the honour to be,

Sir,

Your most obedient servant,

To

The Chief Secretary to Government.

Sir,

With reference to correspondence ending with this office No.6420 dated the 25th May 1918, I have the honour to forward herewith a copy of letter No. 195 dated the 22nd idem received from the Honorary Secretary, Mysore Engineers' Association, furnishing his opinion on the question of entrusting the printing work of the Association to private presses, and to request that, in the circumstances represented therein, the Government Press may be asked to continue to print the proceedings and Bulletins of the Association.

I have the honour to be,
Sir,
Your most obedient Servant,

N.J.P.

R V Sundaram
for Chief Engineer of Mysore

Letter No.195 dated the 22nd May 1918 from the Honorary Secretary, Mysore Engineers' Association to the Chief Engineer of Mysore, Bangalore.

In reply to the correspondence ending with your No.6072 dated the 17th instant, I have the honour to state as follows:-

As pointed out in the letter of the Chief Secretary to Government No. G. 10694 dated the 4th February last, communicated in your No.1582 dated the 6th idem, the printing of the Bulletin for April last was entrusted to a private press. The work was executed no doubt in time, but considerable difficulty was experienced in the absence of the required stock of the mathematical figures and asymt

In addition to this, it is found that the charge of paper, etc., is much higher as these private presses cannot evidently buy them as cheaply as the Government Press can do.

Above all the Government Press is more accessible being much nearer to the Association rooms so that the Librarian can visit the Press as often as it is found necessary and avoid the necessity of correspondence and the consequent delay.

Under these circumstances, I request that you will be pleased to arrange that the printing work of the Association be undertaken by the Government Press as usual.
